

PLANNING FOR DISRUPTIONS

This worksheet is used to begin immediate and long-term planning efforts. Choose a disruption from the Disaster Review worksheet and identify resources you will need to respond for each time frame. For example, if the disruption is damage to homes, a short-term need could be using a meetinghouse for shelter, a mid-term need could be performing minor repairs to homes or purchasing tents, and a long-term need could be constructing more permanent shelters. Use the Actions and Assignments worksheet to plan how to gain access to needed resources. Complete a new worksheet for each disruption.
